### Udemy

Queretaro, Mexico

*100 days of Coding Bootcamp*

## WORK EXPERIENCE

---

### BairesDev

San Francisco, California (Remote)

*Commercial Legal Counsel*

*Apr 2022 - Present*

- Led several projects regarding Team Metrics Analysis, Reports for Management, and analysis of Jira ticket handling.
- Maintained a 100% SLA on contract drafting, negotiation, and delivery.
- Proposed and drafted a project to implement software to reduce average contract delivery times.

### Cortina, Tagle & Isoard

Queretaro, Mexico (Remote)

*Legal Counsel*

*Sep 2020 - Apr 2022*

- Implemented an internal compliance and corporate governance policy to handle Personal Information for clients and employees.
- Proposed and implemented an SVN for handling the company's internal documents, reducing delays in handling paperwork.

## PROJECT EXPERIENCE

---

### Green Formatter

México

*Formatting App with a GUI*

- Formatting app that manipulates text copied on the system clipboard; built on Python using CustomTkinter module and CSV files; future implementations include user inputs to have predetermined templates for text they constantly require.

### CRM

México

*built with Django*

- CRM was developed for a small insurance company focusing on lead follow-up. Built using Python and Django as a framework.
